The Greenspan Co./Adjusters International
400 Oyster Point Blvd. Suite 519
South San Francisco, CA 94080

I was devastated when my duplex burnt down recently. My insurance adjuster immediately tried to reduce the claim by bringing out his own contractors and restoration companies. It was pretty clear to me that when the insurance company was trying to clean walls that were heavily damaged and save contents that were of small value I knew that the process was beyond my expertise.

I am glad I was referred to you and KC Cullum shortly after my fire. You and The Greenspan Company/Adjusters International were instrumental in taking the stress and burden of dealing with the insurance company and its victimizing process. You brought on board the right people to neutralize the insurance company's experts. Every position they took to reduce the claim you were there on my behalf to advocate the proper recovery under my policy. At the end, I received almost two times the amount that the insurance company offered.

I could not have done this claim without your help. Please do not hesitate to use me as a reference. I can't say enough good things about you and your organization.

Sincerely,

Virginia Velasco-Lopez
