

May 21, 2008

Mr. Gordon Scott, President
The Greenspan Company / Adjusters International
455 University Avenue, Suite 350
Sacramento, CA 95825

Dear Mr. Scott,

In March 2006, our warehouse suffered wind damage. As a result, I met with Steve Solomon and made a decision to retain the services of The Greenspan Company / Adjusters International to represent Machabee Office Environments in our insured loss recovery. I cannot commend your organization more highly and must say that everyone, from the adjuster, inventory expert, construction cost estimator to your administrative staff, dealt with me courteously and professionally. Clearly, a team effort on everyone's part. You are consummate professionals. You consistently demonstrated integrity, knowledge, people skills and attention to detail.

I am convinced that we recovered substantially more than we would have otherwise had we not retained your services. Without any reservation, I can and will recommend you to anyone who sustains a property loss.

Sincerely,

A handwritten signature in black ink that reads "Gary Machabee".

Gary Machabee
Owner
