To whom it may concern:

In February 24th 2003 Ano-Brite Inc had a devastating fire. Due to this tragedy the company experienced a substantial loss. Everything I had worked for all my life was gone!

As I started to deal with the insurance company, I realized that I needed to hire a company to represent my interests, and to help me go back in business as soon as possible.

The experience and efforts of Arnie Abramson were invaluable for a speedy recovery. I will always be grateful to Arnie and the Greenspan Company for helping me during these difficult moments.

Sincerely,

Marcos Cielak
President
