January 14, 1992

Dear Robb:

Joe and I would like to take this opportunity to thank you for your excellent and very devoted attention in handling our two insurance claims this year.

Perry Silver and his law partner went to La Tronics and picked this Nikon video camera and ordered two from us. Joe and I figured they made a good choice so we are sending you the same camera. It is small and very easy to use. You can call my store or come to my house and Joe can show you how to use it if you have any problem. You can connect the camera to the TV and the camera becomes the VCR so you can view your movies. We think you will enjoy your movies.

We gave you a five year warranty so your camera will be working forever. Keep the extra battery charged so you can take it with you.

We have ordered you a newer version of the Olympus camera your wife has and we will ship it to you as soon as it arrives. It is very much in demand and it is on back order.

Thanks again for everything and keep in touch.

Sincerely,

Rosalae and Joe sasson
