To Whom It May Concern:

On December 12, 1999, the organization that I represent, UAW Local 509 suffered a major loss as a result of a fire. The fire occurred at a commercial building that our Local has owned for many years. I was at home when news of the fire interrupted normal TV programming. It was obvious that the fire had totally destroyed the building and all of its contents.

I immediately drove to the building to find the fire still being fought by the fire department. Arriving on the scene, I was approached by the investigators from the fire department. I told them all I knew concerning the building and its recent history.

After completing the discussion with the fire department, I was approached by numerous company representatives who wanted me to hire them for various projects. I listened to what each one had to say, although I was reluctant to make any sort of commitment.

Then I spoke to Douglas Lavine of the Greenspan Corporation. He seemed knowledgeable and sincere. He took the time to explain exactly what services his company would provide. He went on to explain that his company handled the World Trade Center bombing and the bombing of the Oklahoma Federal Building. Additionally, he provided me with local references and the names of other organizations (including Unions) that he had worked with.

I am very pleased with the services provided by Greenspan Corporation and the adjuster assigned to my case, Arnie Abramson.

The fire took place on December 12. By March 15 we were pleasantly surprised by the settlement the Greenspan Corporation had negotiated on our behalf.

I would gladly recommend the Greenspan Corporation to any individual or organization. They certainly performed well for UAW Local 509.

If you have any questions, I may be reached at the number listed above.

Sincerely,

DWAINE LAMOTHE

President

UAW Local 509
