Re: Pacific West Loss - McCall, ID

Dear Chris,

I just wanted to write this letter of thank you and recommendation for Adjusters International. You came to the aid of Pacific West and myself when we were really between a rock and a hard spot. This was the second fire we had been through; the first fire we had we tried to handle the claim ourselves and that turned out to be a disaster. In this fire, when I turned the work over to Adjusters, you stepped up to the plate. You provided all the information the insurance company wanted, in an organized and precise manner, so they could understand it. Our loss was \$1,608,931, we recovered all but \$65,000 of that loss. I think that is an amazing amount compared to the claim we submitted, and the amount we received. You billed me fairly and worked with me throughout this whole process, in a very professional and diligent manner.

I would highly recommend anyone who has had a loss in this business to use Adjusters International as their claim agent to help them settle any course of construction fire claims they may incur. These guys what they are doing and are very professional about it. If you would like to call me personally and talk about this I would be more than willing to discuss anything. But I highly recommend Adjusters International.

Sincerely,
