Dear Bill,

I would like to express my sincere thanks and gratitude to you, Sandy Cho, and the Greenspan Company for the dedication and long hours of work which you did in order to help us resolve our fire loss with the insurance company. As you well know, they were very hesitant to pay our claim at all and without all of your help they never would have.

Their ridiculous offers and rejections would have definitely put us out of business forever instead of the eleven hard months without you in there fighting for us.

It was worth all the hassels and hard knocks just for the priviledge of getting to know you and the Greenspans. Although the adjusters advised us that we didn't need you , without you we would have surely perished as did our business in the fire. Again, I say "THANKS" to you and your company.

Sincerely,

Fran & Harvey Schuler
