Last year when the fire occurred at my rental property, I thought the insurance company would just pay me and I would have the repairs made. Soon it became apparent the insurance company was going to drag their feet and were not going to pay me enough to make the repairs and necessary code upgrades. Thanks to your expert handling of my insurance claim, we were able to settle with the insurance company for two and a half times the amount they were originally offering us.

Thankfully this is behind us and we can now get on with our lives. Please have your potential clients contact me if they would like a referral from me.

Sincerely,

PEDRO CORREA
