Dear Mr. Molineaux:

Elena and I would like to express our appreciation for all of your hard work in concluding our insurance claim with the insurance company. From the onset you brought your building and inventory experts to assist with the preparation of the claim and interface with the insurance company throughout the process.

Your attention to detail and knowledge of insurance produced a settlement beyond our expectations and without you we could not have achieved the results your firm realized.

I highly recommend anyone with a serious disaster should contact you immediately. We found your fee more than reasonable and again thank you for all of your fine efforts and assistance with our claim.

Very Truly Yours,

John & Elena Moldovan
