Kenny,

Sorry it took so long to get this to you. You may use this as you see fit. Someone called me already and I gave you a glowing recommendation!

We highly recommend The Greenspan Co./ Adjusters International. They were immensely helpful when fire severely damaged our home so that it had to be rebuilt. Jessica and Kenny were wonderful to work with, always on the ball and great advocates. They saved us an immense amount of trouble during a very stressful time and earned back their commissions and then some.

Our insurance company tried to lowball all our property as is typical. We don't think we could have gotten as good a settlement on our own as we ended up with using The Greenspan Co./ Adjusters International. They really know their business!
