Dear Arnie -

When the fire happened to my apartment and my home, I was filled with despair. It seemed as though there was no end to the problems we faced.

Until my sons' friend introduced us to Arnie Abramson of the Greenspan Company.

The dark clouds of uncertainty were replaced by a guiding light. Whenever I had a problem and would call for guidance, Arnie could be counted on to reply promptly with assistance. The story was the same day after day. We came to depend on Arnie.

I particularly appreciate the fact that Arnie made a special effort to arrange compensation for my belongings. It was unbelievable.

Thanks for your kindness and help during this difficult interlude.

Sincerely,

Judith Levy
