Dear Clay,

As the owner of a large commercial building, I never anticipated that I would have to deal with the total loss of my commercial property. But when a fire burnt our building to the ground, my partners and I knew we were in over our heads. We had never dealt with this sort of business issue. After meeting with Gordon Scott of The Greenspan Co./Adjusters International, it became apparent that our loss was going to be very complicated.

The Greenspan Co./Adjusters International offered services that allowed for the maximizing of our insurance claim. Working with you and Gordon Scott greatly simplified our experience. You were able to maximize our recovery. I would highly recommend The Greenspan Co./Adjusters International to any commercial property owners who suffered a catastrophic loss.

Sincerely,
