Dear Chris,

I would like to take this opportunity to thank you for your help with my insurance claim with Hartford Insurance. Your firm did a great job negotiating Athan Corporations loss of income suffered from water damage caused by flooding. With you and your company handling my loss of income claim I was able to concentrate on restoring my business to its original, working condition. Using your company also allowed me to obtain the full amount of money that our company needed and deserved in order to get us up and running again. I would not only use your services again but would also recommend you to others who are in a similar situation.

Many Thanks,

George Athanasiou
