I am very pleased with the expertise and assistance you extended us in our claim versus the insurance companies after typhoon "Paka", the biggest typhoon to hit Guam.

Had it not been for your competence and experience, it was a certainty that the negotiations would have dragged into months, if not years.

Thank you for your patience with us, recognizing very well that we had just gone through a very stressful situation.

We will be very happy to make referrals about your firm to our friends and colleagues. More power to you and Paul Migdal.

Very truly yours,
