James E. Vinzant
960 Capital Street
Costa Mesa, CA 92627

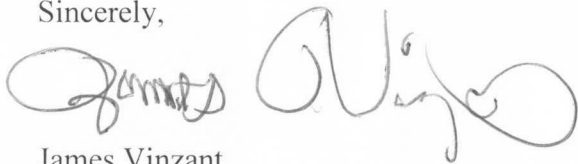

Hello,

If you are reading this, chances are you've just experienced a loss and have some questions. I have a property in Northern California that caught on fire, but I live in Southern California. The distance made it difficult for me to deal with my insurance company and the claim process as a whole. I knew I needed help. Luckily, I was introduced to Brian Duke, Clay Gibson and The Greenspan Co./Adjusters International team.

My main reasons for hiring The Greenspan Co./Adjusters International was simple. They knew the claims process well and they were local. Clay was available to meet with my insurance adjuster anytime and took care of their requests. This allowed me to continue on with what I had to do. His experience with the claims process proved to be a great asset. Clay was able to get my insurance company to pay for the personal property in the house even though I was not living there.

The Greenspan Co./Adjusters International are professionals and experts in their field. I would highly recommend hiring Brian Duke, Clay Gibson and the whole team at The Greenspan Adjusters International.

Sincerely,

A handwritten signature in black ink, appearing to read "James Vinzant". The signature is written in a cursive style with a large, looping flourish at the end.

James Vinzant
