Dear Tony,

On behalf of my family and staff at Wallace Foods I wish to thank you and Lou Stewart for your Professional advice and service that was provided to us in a most difficult claim.

There is little doubt that we would not have been able to achieve the level of expertise that your firm provided not to mention the patience shown by you and your staff, especially Lou Stewart.

Without the representation of your Firm, we would have had difficulty satisfying the issues concerning the claim on the business loss income portion of our policy. The final claim paid by the insurance company was 25% more than what they wanted to settle on.

All the best

Sincerely,

Clifton Williams,  
President
