Dear Mr. Cuccaro,

I am writing to thank you and members of your firm for the professional handling of my case. The skillful and sensitive work accomplished by Mr. Militello and Mr. Hamlin was timely and resulted in mitigating the harmful effects upon my business. Their excellent work allowed my business to continue without major disruption of service and thus lessening the financial loss.

Though I hope I am not put into a situation where I need future adjustment service, I would not hesitate contracting with your firm or to remember your firm to my business associates.

Sincerely yours,
