RE: Fire at Woodlawn Street

Dear Dan,

I want to thank you for your polite but tenacious work on our fire claim on Woodlawn in Chula Vista California.

Although it was a small fire the insurance company subtracted it out to company whose claims adjuster became unfriendly when we thought the settlement offer was low.

Thanks to your help we feel we have received fair compensation and did not have to be in constant contact with this adjuster.

We thought of you because Greenspan successfully handled a fire in our business location ten years before. I am glad you give small claims the same quality attention as your big ones.

We would recommend to Greenspan to anyone in need of representation on their insurance claims.

Sincerely,

Nancy Estolano
CFO
