Dear Melissa and Gary:

This is a letter of recommendation to anyone that has an insurance claim. They will need the services of a public adjuster. I was recommended to you by a friend that you helped when he had a fire. When I experienced a fire in my home, I immediately contacted your company.

You both worked and fought very hard to insure that I received all the monies due me under my insurance policy and also made sure that my house got put back together, right. I could always count on your assistance and guidance for any issues that arose.

I would highly recommend your services. If I should ever incur another loss in the future or know of anyone that does, I would not hesitate to call you again. Your service, professionalism and dedication to my claim were more than I could ask for.

Thank you,

A handwritten signature in cursive script that reads "Alice Fish".
