Dear Jeff:

On behalf of Brew's Brothers Inc., I would like to thank you and your associates for the excellent job your firm did in bringing our insurance claim to an equitable and expeditious conclusion. You and your team came in and immediately started the investigative and data collection process. Communication was promptly established with both of the insurance companies, and when the adjustment process slowed, you initiated action to get it back on track.

Additionally you worked with our first-party insurer to make sure we collected for all of the areas of coverage provided by our policy and you also minimized the amount of depreciation the third-party insurer deducted from our claim.

The final settlement exceeds anything we could have achieved without your involvement and there is no question that we would highly recommend your firm to anyone who has incurred a catastrophe and is facing an insurance claim. Hopefully we won't need your services in the future, but if we do we will not hesitate to contact Globe Midwest/Adjusters International.

Sincerely,
