Reference: US Color Corporation dba Pi Graphics Multiple Hurricane Damage
2004

US Color Corporation suffered not only major physical damage during these hurricanes but also severe loss of income during this 4 month period and the several ensuing months.

I knew immediately that the scope of the damage and the substantial amounts of money involved needed more than just US Color Corporation negotiating directly with the insurance companies; so we sought the professional help of Goodman-Gable-Gould. (GGG)

I rank my decision to hire GGG among one of the most astute decisions made in my entire business career.

GGG made US Color Corporation completely whole again. We received almost immediate funds from the insurance company to satisfy the physical claims. Our loss of income claim was very complex and yet again US Color was completely paid in full for all loss of profits, for the complete period we had claimed.

On a personal note, all the staff and in particular Pasquale Cuccaro and Jesse Forkner went the extra mile for us every time.

We remain very grateful.

Yours sincerely,

John R. Cleeveley

President
