Dear Masood:

We wish to thank you and your team of Steve Severaid, Chris Glenister, and Heather Connell for the terrific job in negotiating our commercial insurance claim. As you know, we suffered a devastating fire which destroyed our developer, an essential piece of machinery used in the production of our custom circuit boards. In addition, there was smoke and water damage to our clean environments. Our facility had to be shut down while repairs were made and equipment replaced.

Our company could have easily suffered additional losses to production, had it not been for the timely settlement you negotiated with our insurance company. Thanks to your experience, skill and company's reputation we were able to recover in excess of \$740,000.00 from the insurance company. This amount far exceeded what we could have recovered on our own. This is not to mention the amount of time, effort and distraction from our own business it would have taken us to recover any of the monies.

We consider the fee we paid for your services to be very reasonable. We cannot thank you enough for getting us back into production. Please do not hesitate to use us as a reference. We would be happy to recommend you and your firm anytime.

Sincerely,

Vector Fabrication, Inc.
