Re: Globe Midwest Adjusters International
25800 Northwestern Highway Suite 885
Southfield, MI 48075

To Whom It May Concern:

This letter is to recommend Globe Midwest Adjusters International as a public adjuster. Centrifugal Industries of Wisconsin, Inc. suffered a furnace explosion in June, 1996 and a major fire in November, 1996. Substantially all of the building and equipment was replaced as a result of the fire. Globe Midwest handled both claims on our behalf.

It is our belief that we would have collected substantially less insurance money if we had not hired Globe Midwest. Their expertise was demonstrated through their knowledge of chemical reactions created by the fire and the extensive equipment damage that occurred as a result of the reactions. We would not have been aware of this serious damages that goes way beyond a simple cleanup. Their experience and knowledge surfaced other problems that we would not have suspected to occur.

Centrifugal Industries of Wisconsin, Inc. was very satisfied with our association with Globe Midwest Adjusters International and highly recommends them.

Sincerely,

Rob Lofdahl
Chief Executive Officer
